**6-Month Pilot Program
April 24-October 23, 2017**

**Allowing
On-Leash Dogs
in
City Park
and
Grundy Park**

Rules Regulating Dogs in San Bruno Parks

With the exception to the dog run located at Commodore Park, the City's Municipal Code prohibits all animals, except service animals, whether on-or-off-leash from entering all City Parks.

The City Council recently approved a six-month Pilot Program from April 24 through October 23, 2017 which allows on-leash dogs in City Park and Grundy Park, only. Dogs remain prohibited in all other City parks. At the conclusion of this six-month trial period, the City Council will review the impacts and results of the Pilot Program and will determine whether or not to alter the current rules regulating dogs in all City of San Bruno parks.

Pilot Program Guidelines

The six-month Pilot Program runs from April 24—October 23, 2017. During this period, on-leash dogs are permitted in both City Park and Grundy Park, only. No other City parks are included in this Pilot Program. On-leash dogs in City Park and Grundy Park must remain on paved park pathways, must remain at all times under the handler's control, and be on a leash no longer than six feet in length. Leashes longer than six feet in length, including retractable leashes, are prohibited. A handler may have no more than three dogs, regardless of size, under their control.

Informational signs are located at entrances to both parks explaining the Pilot Program and showing both emergency and non-emergency telephone numbers.

As part of the Pilot Program, waste bag kiosks have been placed throughout City Park and Grundy Park to ensure the necessary supplies are available within the parks for dog handlers to responsibly clean-up after their dog.

Enforcement of Park Rules Regulating Dogs in Parks

During the six-month Pilot Program, the San Bruno Police Department will continue to enforce the ordinance dogs on-leash but not on park pathways and off-leash dogs in City Park and in Grundy Park, on a complaint-basis. In all other parks where dogs are prohibited, the Police Department will continue its current enforcement. Compliance with park rules is the objective of this enforcement effort. If a Police Officer observes a violation of the rules regulating dogs in parks, the Police Officer will first advise the handler of the ordinance and seek compliance. The Police Officer may issue a citation if the handler fails to comply.

Evaluation of the Pilot Program

During the Pilot Program, City staff will collect information on Police Department enforcement activities and input from the community. Parks Maintenance staff will monitor additional maintenance and cleaning activities related to dogs at City Park and Grundy Park. At the conclusion of the six-month Pilot Program, City staff will report back to the City Council and provide input on whether or not the Pilot Program has been a success or failure based on the information collected.

Summary of Pilot Program Guidelines

- **City Park and Grundy Park, only. No other City parks are included in the Pilot Program.**
- **Dogs must remain on paved pathways.**
- **Dogs must be on a leash no more than six-feet in length.**
- **Handlers must clean-up immediately after their dog.**
- **Handlers may have no more than three dogs, regardless of size, under their control.**
